#### • Comprehensive Management of Custom Projects

Over 10 years of experience managing bespoke furniture and carpentry projects for private clients and companies, from the initial consultation through to final delivery. Coordinated every project phase to provide end-to-end solutions tailored to client needs while maximizing process efficiency.

#### • 3D Design and Technical Planning

Creation of detailed 3D designs for each project, providing clients with clear visualizations that facilitate understanding of the final outcome. Development of precise technical and carpentry drawings to ensure accurate execution and full compliance with client requirements.

#### • Custom Budget Development

Proven ability to produce detailed and transparent cost estimates, adapting budgets to client constraints without compromising quality. Strong experience in optimizing cost-benefit ratios to maximize client satisfaction and return on investment.

- **Teamwork:** Strong ability to coordinate and collaborate effectively within a team, achieving shared objectives through clear communication and mutual support.
- **Attention to detail:** Highly detail-oriented, ensuring accuracy, consistency, and quality in every task.
- **Professional commitment:** Strong dedication to assigned projects and responsibilities, maintaining focus and motivation to meet objectives.
- **Positive work environment:** Active contribution to a positive and respectful workplace, fostering constructive relationships with colleagues.
- **Stress management:** Ability to remain calm and maintain consistent performance under pressure.
- **Ability to follow instructions:** Quick to understand and accurately follow instructions, ensuring tasks are completed in line with established guidelines.
- **Organisation and cleanliness:** Methodical and well-organised approach to work, maintaining clean and orderly workspaces to support efficiency and smooth workflow.
- **Effective communication:** Clear and assertive communication skills, supporting understanding and coordination within the team.

- **Bespoke Manufacturing and Craftsmanship**

Execution of high-quality carpentry work, from the construction of solid structures to the fabrication of detailed, custom-made furniture. Expert use of a wide range of materials and carpentry techniques for flooring, windows, doors, and structural elements, ensuring each piece is functional, aesthetically refined, and durable.

- **Professional Installation**

Complete on-site installation, ensuring precision in assembly and a flawless finish. Meticulous adaptation of each element to the spatial specifications, optimizing both functionality and visual integration.

- **Personalized Client Support and Consultancy**

Continuous client support throughout all project stages, providing expert guidance and decision-making assistance. Focused on delivering a smooth, reliable client experience that fosters confidence and clarity at every step.

- **Adaptability and Problem Solving**

Strong ability to anticipate and resolve issues during manufacturing and installation, ensuring projects are completed within agreed timelines and budgets. Highly adaptable to changes in client specifications, responding efficiently and effectively.

- **Quality and Safety Compliance**

Application of rigorous quality standards across all projects, ensuring that products and processes meet technical and safety requirements. Full compliance with applicable regulations to deliver safe, long-lasting results. con las normativas aplicables para ofrecer resultados duraderos y seguros.

- **Autonomy and Professional Responsibility**

Independent execution of all project stages, from planning to final delivery, supported by a strong work ethic that prioritizes client satisfaction and consistently exceptional results.
